

INTERNATIONAL SEARCH REPORT

plication No

PCT/BR 03/00101

A. CLASSIFICATION OF SUBJECT MATTER

IPC 7	G06F1/00	2	¹ JAN 2005					
According to	International Patent Classification (IPC) or to both national classification	on and IPC						
B. FIELDS SEARCHED								
Minimum documentation searched (dassification system followed by classification symbols) IPC 7 G06F								
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched								
Electronic data base consulted during the international search (name of data base and, where practical, search terms used)								
EPO-Int	ternal							
C. DOCUME	ENTS CONSIDERED TO BE RELEVANT							
Category °	Citation of document, with indication, where appropriate, of the rele	vant passages	Relevant to claim No.					
X	UCHIDA K: "Fingerprint-based user-friendly interface and pocked mobile authentication" PATTERN RECOGNITION, 2000. PROCEED 15TH INTERNATIONAL CONFERENCE ON 3-7, 2000, LOS ALAMITOS, CA, USA, COMPUT. SOC, US, 3 September 2000 (2000-09-03), p 205-209, XP010533057 ISBN: 0-7695-0750-6 page 207, paragraph 3.1 - paragrapage 208; figure 5 page 207, right-hand column	DINGS. SEPTEMBER IEEE ages	1					
X Furt	ther documents are listed in the continuation of box C.	Patent family members are listed	lin annex.					
"A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier document but published on or after the international filling date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but		T' later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art. "&" document member of the same patent family						
Date of the	actual completion of the International search	Date of mailing of the international se	earch report					
1	December 2003	16/12/2003
